

Analyst – Decentralised Energy

Edinburgh, UK

Build a career with the market leader in decentralised energy - one of the fastest growing and dynamic low carbon market segments in the world today.

Who we are

We are an enterprising and rapidly growing research and consulting company. We provide commercial insight and market expertise in low carbon, decentralised energy products and services. Delta is increasingly recognised as the leading provider of expertise in our market.

What we do

We help organisations in Europe, North America and Asia understand and exploit opportunities in these markets. We work with decision makers in our major client groups: energy companies, equipment manufacturers and technology developers, investors, and policy makers.

We provide our clients with commercial insight and expertise based on deep market knowledge, delivering:

- ▶ Bespoke consultancy
- ▶ Research services and multi-client studies
- ▶ Summits

For further information on our activities see www.delta-ee.com.

The Opportunity

Delta is seeking an **Analyst** who can play a key role in our consultancy and research services while supporting our future expansion and development. This is a substantial opportunity to:

- ▶ Become an international expert in specific decentralised energy sectors and low carbon markets.
- ▶ Advise decision makers on how to exploit opportunities in these markets.
- ▶ Work in a stimulating, supportive and rewarding environment.
- ▶ Take growing levels of responsibility as Delta expands.

Responsibilities will include:

- ▶ Researching and delivering high quality consultancy assignments.
- ▶ Researching and producing high value multi-client studies and membership-based research services.
- ▶ Building relationships with industry contacts, developing client relationships and contributing to the development of new business.

Requirements and Qualifications

Applicants should have a relevant post-graduation qualification. Relevant work experience is not essential, but would be an advantage.

You will be able to demonstrate:

- ▶ A high level of academic achievement, and / or a background of impressive achievement in your career to date.
- ▶ A profound desire for learning, becoming an expert and developing new contacts and networks.
- ▶ The confidence and initiative to apply a variety of research methods, including face-to-face and telephone discussion with industry experts and other professionals.
- ▶ Excellent writing, communication and organisational skills.
- ▶ Ability to work effectively in teams while also taking your own initiative to overcome challenges.

Fluency in a relevant second language is a strong advantage. Employees are sometimes required to travel within the UK and internationally.

Salary and Benefits

We offer competitive salaries based on experience and qualifications. We offer 25 days holiday a year plus bank holidays, a contributory pension and a profit-related bonus scheme. The successful candidate will also be able to benefit in due course from the establishment of a Delta employee share scheme.

Application

Please forward a CV and covering letter, outlining why you believe you are suitable for this role, by e-mail to michael.brown@delta-ee.com.
