**DISTRIBUTED POWER SERVICE**

---

# Delta-EE Research Services

## How it works

**Delta-EE enables organisations to develop the best strategies, business models and customer propositions for the energy transition. We do this, depending on clients' needs, through our subscription research services and bespoke consultancy projects requested by clients.**

### Subscription Research Services

Our yearly subscription research services focus on a particular area of the new energy transition. They allow clients to fully understand the areas of new energy their business is focused on, and future market direction.

Whether you're a smart home provider looking for the next market to target or a network company needing to keep up to date with the developing flexibility market, we'll find the relevant services for you.

Ad hoc support from our team of energy experts is also included.

For more information regarding Delta-EE's bespoke consultancy projects, visit [www.delta-ee.com/consultancy](http://www.delta-ee.com/consultancy).

# Distributed Power Service Features

Subscribers have access to research and support

## In-Depth Reports

Thoroughly researched reports on the most important topics in your new energy area of focus

## Viewpoints

Reactive reports exploring the latest news and events within new industry from an expert point of view

## Databases

The data you need to make the best decisions for your business, including customer research

## Company Profiles

Case studies focusing on specific companies within the energy space, investigating their business models and customer propositions

## Analyst Support

Ad hoc support from our expert team of Analysts

## New Energy Summit

Discounted entry to our New Energy Summit, giving you the chance to learn from industry experts and network

# Distributed Power Service Scope of Research

## Researching the topics you need to know about

- Which countries have the biggest market opportunities now?
- Which customer segments should we focus our sales on, in which countries?
- How well positioned are we – on a national, regional and global level?
- What are the emerging opportunities that we should focus on?
- How will markets develop in the future, and what are the key factors affecting this?
- What are the opportunities for gas engines in data centres?
- What are the opportunities for gas engines in microgrids?
- How will an evolution towards a hydrogen fuelled economy impact the gas engine market?
- How will emission regulations shape the distributed power market in the future?
- What are the opportunities for gas engines as distributed energy and renewables grow?

[Access further in-depth research highlights in our Distributed Power Research Highlights.](#)

# How our research helps your business

The Service enables you to be successful in global gas engine markets by providing data, analysis, insights and opinion on the markets, opportunities, customer types and competitor types.

## Benefits

- Enables you to make the best strategic decisions on which countries to focus your sales efforts on
- Helps you identify the most promising energy user segments and applications, so that you can best focus your sales efforts
- Allows you to understand your business positioning on a global and country-level scale and react as appropriate
- Enables you to understand and plan effective market entry in emerging distributed power applications

## Example clients

- Gas engine manufacturer
- OEM
- CHP packagers

***“Delta-EE’s quality of customer engagement and information gathering has been excellent.”***

– Leading Investment Company

# Who We Are

A friendly team putting you at the centre of the research

**Happy**  
and motivated  
team

We are a diverse team made up of statisticians, commercial directors, data analysts, policy experts, blockchain specialists, customer insight experts, economists, social scientists, thought leaders, environmentalists, marketers, energy managers, business developers, chemists, physicists, technologists, industry leaders, geoscientists, mathematicians, modellers, sustainability practitioners, carbon managers, product managers, and engineers.

**50% of our staff are women. We represent 14 nationalities. We speak 16 different languages.**

**We are all passionate about the energy transition.**

**Doing** ✓  
the **right**  
thing

Our offices are across the UK and in Paris, but we work with our network across Europe and beyond.

Our clients are at the forefront of everything we do. We regularly ask for feedback and input on the research we do, and ensure our service always provides the knowledge needed to navigate the energy transition.

**Fulfilling**  
our potential

*"Since 2004, we have provided our clients with the leading information, analysis, insight and advice in emerging distributed energy markets.*

*Our in-depth research helps our clients exploit opportunities in the change in energy markets from old to new energy and make the best decisions for their business.*

*We always go the extra mile for our clients, and pride ourselves on long-lasting, collaborative working relationships."*
