

Senior Analyst – Consultancy

Based in Edinburgh, Cambridge, London

The Opportunity

LCP Delta is looking for a **Senior Analyst** who can play a key role in our consultancy service and support our future growth.

This is a great opportunity to:

- Become an international expert in low carbon distributed energy sectors and markets.
- Advise decision makers on how to exploit opportunities in these markets.
- Work in a stimulating, supportive and rewarding environment.
- Take growing levels of responsibility as LCP Delta expands.

Your role will involve:

- Conducting in-depth research using a variety of methods
- Delivering reports and engaging content to our consultancy clients
- Managing consultancy projects (mix of large and small, usually more than one at the same time)
- Working across a broad range of new energy topics
- Communicating with clients via reports, presentations, email, webinars or by phone
- Building relationships with industry contacts on behalf of the company, developing client relationships and contributing to the development of the business
- Working in a range of project teams

Consultancy Team

LCP Delta's consultancy team provides services to a range of our existing research clients and new clients. We have delivered projects for over 100 organisations covering network companies, energy suppliers, policy makers (associations and Government departments), manufacturers, technology companies, and investors and new entrants. Our consultancy work covers the following main areas:

- Market analysis and forecasts
- Propositions and customer research
- Strategy and Innovation
- Energy demand forecasting and modelling
- Supporting clients make effective strategic decisions and innovate for competitive advantage
- Technology and Product analysis

Through working closely with our research team, we can deliver high value consultancy using the latest market insights.

Example consulting assignments:

- BEIS: The opportunity for smart heat pumps in load management / demand response.
- European Energy Company: In-depth research on connected home companies and customer propositions in Europe to support development of its connected home strategy.
- Major heating appliance manufacturer: Forecasting the evolution of heating markets across Europe, and how it should adapt its technology portfolio to grow its business.

Requirements and Qualifications

If you've got the right skills for the job, we want to hear from you. We encourage applications from the right candidates regardless of age, disability, gender identity, sexual orientation, religion, belief or race.

For this position, you will be able to demonstrate:

- Relevant work expertise ideally in energy consultancy.
- Relevant energy experience would be desirable (but not essential), including energy networks / energy storage / flexibility / low carbon heat / integration of distributed resources / EVs.
- Excellent **consultancy project management skills** and experience in leading consultancy projects.
- Collaborative and team oriented working skills.
- Evidence of your ability in a variety of research methods, including face-to-face and telephone discussion with industry experts and other professionals.
- The ability to develop relationships with new industry contacts / clients, and to understand their needs.
- The ability to network and attend events where required.
- Modelling (predominantly MS Excel) and quantitative analytical skills (desirable but not essential).
- Strong interpersonal, writing and organisational skills
- Ability to manage and prioritise a workload involving multiple projects and deadlines.

About LCP Delta – Experts in New Energy

Founded in 2004 and based across the UK, France, Norway, the Netherlands and beyond, LCP Delta provide data-driven research, consultancy, technology products and training services to companies investing in and navigating the energy transition.

LCP Delta was formed through the merger of Delta-EE and LCP Energy to bring together deep generation and consumer-side expertise, to provide our clients with a single partner to help them on their journey and provide them with a 360° view across the energy spectrum.

We are a diverse team from a variety of backgrounds including engineers, data analysts, environmentalists and more. All of us want to make a difference to the energy transition and accelerate the path to a low carbon future.

Our Team

Creating a great company culture and being a place that people love to work is very important to us; we are a collaborative, inclusive and friendly team. To find out more about what we do, our mission and values please visit <https://www.delta-ee.com/aboutus>
