

Analyst – Consultancy

Based in Edinburgh, Cambridge, London

The Opportunity

Delta-EE is looking for a **Senior Analyst** who can play a key role in our consultancy service and support our future growth.

This is a great opportunity to:

- Become an international expert in low carbon distributed energy sectors and markets.
- Advise decision makers on how to exploit opportunities in these markets.
- Work in a stimulating, supportive and rewarding environment.
- Take growing levels of responsibility as Delta-EE expands.

Your role will involve:

- Conducting in-depth research using a variety of methods
- Delivering reports and engaging content to our consultancy clients
- Managing consultancy projects (mix of large and small, usually more than one at the same time)
- Working across a broad range of new energy topics
- Communicating with clients via reports, presentations, email, webinars or by phone
- Building relationships with industry contacts on behalf of the company, developing client relationships and contributing to the development of the business
- Working in a range of project teams

Consultancy Team

Delta-EE's consultancy team provides services to a range of our existing research clients and new clients. We have delivered projects for over 100 organisations covering network companies, energy suppliers, policy makers (associations and Government departments), manufacturers, technology companies, and investors and new entrants. Our consultancy work covers the following main areas:

- Market analysis and forecasts
- Propositions and customer research
- Strategy and Innovation
- Energy demand forecasting and modelling
- Supporting clients make effective strategic decisions and innovate for competitive advantage
- Technology and Product analysis

Through working closely with our research team, we can deliver high value consultancy using the latest market insights.

Example consulting assignments:

- BEIS: The opportunity for smart heat pumps in load management / demand response.
- European Energy Company: In-depth research on connected home companies and customer propositions in Europe to support development of its connected home strategy.
- Major heating appliance manufacturer: Forecasting the evolution of heating markets across Europe, and how it should adapt its technology portfolio to grow its business.

Requirement and Qualifications

If you have the right skills for the job, we want to hear from you. We encourage applications from the right candidates regardless of age, disability, gender identity, sexual orientation, religion, belief, or race.

For this position, you will be able to demonstrate:

- Relevant work experience, ideally in low carbon energy consultancy.
- Relevant energy expertise. Desirable (but not essential) to possess knowledge in some of the following: energy networks, energy storage, energy flexibility, low carbon heat, integration of distributed resources, hydrogen, home energy management or EVs.
- Evidence of your ability in a variety of research methods, including desk-based research, face-to-face and telephone discussions with industry experts and other professionals.
- Modelling (predominantly MS Excel) and quantitative analytical skills (desirable but not essential).
- Excellent project management skills, ideally in a consultancy or research setting. Desirable (but not essential) experience of leading consultancy projects for external clients and budget management.
- Strong interpersonal, writing and organisational skills.
- Collaborative and team oriented working skills.
- Ability to manage and prioritise a workload involving multiple projects and deadlines.
- The ability to develop relationships with new industry contacts / clients, and to understand their needs. A desire to learn from, listen to and understand industry contacts.
- The ability to network and attend events where required.

About Delta-EE – Experts in New Energy

Delta-EE is Europe's leading research and consulting company helping organisations develop the right strategies, business models and customer propositions for the energy transition. The depth and breadth of our expertise in the energy transition space makes Delta-EE unique and our mission is to help our clients successfully navigate the change from 'old energy' to 'new energy'. We provide bespoke consultancy and subscription research services which answer critical questions that impact our clients' businesses and allow clients to access in-depth research in a specific knowledge area.

Our Team
